- Please note:
 - Data reflect infections reported from Trust Clinical Laboratories and are correct at time of extraction from CoVid on 06/02/2020.
 - Data is provisional, not verified and subject to change.
 - Duplicate episodes reported in accordance with PHG Guidelines.
 - Positive blood isolates only extracted through CoVid, in which the test description field is described as culture/isolate, antibody/antigen detection, genomic/PCR/LCR detection or unknown. Data may include a small number of bacteraemia that are culture negative but are antibody positive.
- Please note this is a refreshed data extract so will appear different from previous reports.
- Legionella sp no longer included in table due to change in testing practices.

Tables showing Gram Negative, Gram Positive and Anaerobic Bacteraemias reported in Northern Ireland, from 2010 to 2016.
